

MD AZAM

Data Engineer

☎ +919019675680 ✉ cbrmdazam@gmail.com 🔗 LinkedIn 🐙 GitHub 📍 Basavakalyan, India

PROFESSIONAL SUMMARY

Aspiring Data Engineer with knowledge of Python, SQL, PySpark, Apache Spark, Databricks, and data engineering concepts. Familiar with developing ETL/ELT workflows, data transformation, data processing, data warehousing, and data pipeline concepts. Hands-on experience working with structured datasets and applying SQL and Python for data analysis and transformation. Strong problem-solving skills with a keen interest in building scalable and reliable data solutions.

SKILLS

Programming Languages :	Python, SQL
Big Data :	Apache Spark, PySpark, Spark SQL
Data Engineering :	ETL/ELT, Data Pipelines, Data Transformation, Incremental Loading, Batch Processing
Data Warehousing :	Data Warehouse, OLTP/OLAP, Dimensional Modeling, Star Schema, SCD
Cloud & Lakehouse :	Databricks, Delta Lake, Azure Fundamentals
Databases :	MySQL
File Formats :	CSV, JSON, Parquet
Tools :	Git, GitHub, Jupyter Notebook

PROJECTS

Machine Learning | 🐙 Github

Jan 2026 - Feb 2026

Machine Learning Intern

This internship project focuses on the **classification of healthcare data using the Random Forest algorithm** to predict disease outcomes based on patient-related information. It involved learning Machine Learning concepts such as **data preprocessing, classification, and model building** using real-world healthcare data.

Technologies / Tools Used : Python, Pandas, NumPy, Scikit-learn, Matplotlib/Seaborn

EDUCATION

Central University Of Karnataka | Kalaburagi, Karnataka

Aug 2023 - Apr 2026

B.sc computer Science

CGPA : 7.55

RELEVANT COURSEWORK:

Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Software Engineering, Operating Systems, Computer Networks, Mobile Application Development

EDUCATION HIGHLIGHTS:

- Achieved **Distinction in PUC** with strong academic performance.
- Actively participated in **sports and extracurricular activities** during graduation.
- Developed academic projects including an **MCQ Generator** and a **Healthcare Prediction Model** using machine learning techniques.
- Applied programming, problem-solving, database, and software development concepts through academic projects and coursework.

HOBBIES & INTERESTS:

- Playing and following sports
- Exploring programming and new technologies
- Problem-solving and coding challenges
- Learning about software development and emerging technologies
